### *Linus Jokubaitis Joins MidContinental Chemical Company as Sales Representative*

**Olathe, Kans.** – MidContinental Chemical Company, Inc. (MCC) announces the hiring of **Linus Jokubaitis** as a sales representative. In this role, **Jokubaitis** will have responsibility for developing and implementing MidContinental Chemical Company's product and marketing growth strategies for fuel and lube oil additives in upper Midwest. He reports to **Mike Lucarelli**, the district manager for the Midwest and Northeast areas of USA.

**Jokubaitis** has more than 25 years of experience in working with the refining and petroleum marketing industries. In addition to being an award-winning sales professional, he has a diverse technical background that includes expertise in new product development, conducting vehicle test programs, additive field trials, and designing marketing programs for customers. His career experience includes roles with Lubrizol, BetzDearborn, and Coastal Chemical. **Jokubaitis** holds a bachelor of science degree from Cleveland State University.

"**Linus Jokubaitis** brings both experience and enthusiasm to our customers. He will join our exceptional customer-focused sales team with people who genuinely care about our customers," said **Bill Hanson**, National Sales Manager.

MidContinental Chemical Company, Inc. was established in 1994 and now has eleven sales offices located strategically throughout North America. The company manufactures and distributes petroleum additives that enhance the performance of fuels and lubricating oils in vehicles, equipment and machinery. MCC provides comprehensive additive solutions to the petroleum industry, including petroleum terminals, lube oil manufacturers, pipeline operators and aftermarket producers.

In addition to specialty chemicals, MCC assists clients with equipment needs, and provides specialized support services, such as regulatory compliance and marketing programs. With a line of top brands, including Chevron Oronite, BASF and Dow, MidContinental Chemical Company, Inc. is positioned to offer customers performance advantages from the most advanced additive technology available today.
