Sean Wagner and Stuart Winters Join MidContinental Chemical Company

Olathe, Kans. – MidContinental Chemical Company, Inc. (MCC) announces the appointment of **Sean Wagner** and **Stuart Winters** as sales representatives.

In this role, **Wagner** will have responsibility for developing and implementing MidContinental Chemical Company's product and marketing growth strategies for fuel and lube oil additives in Southern Illinois, Tennessee, and Kentucky. Wagner is a graduate of Southern Illinois University-Edwardsville, where his studies focused on chemistry and business. He reports to **Mike Lucarelli**, the district manager for the Midwest and Northeast areas of USA.

In this role, **Winters** will have responsibility for developing and implementing MidContinental Chemical Company's product and marketing growth strategies for fuel and lube oil additives in northern California, Oregon and Washington. Winter has more than thirty years of experience in the oil and gas industry. He reports to **Ray Sparling**, the district manager for the western region of USA.

"Sean Wagner and Stuart Winters should be great assets to our company and our customers. We rely on our sales professionals to creatively solve customer problems and grow our business," said **Bill Hanson**, National Sales Manager.

MidContinental Chemical Company, Inc. was established in 1994 and now has eleven sales offices located strategically throughout North America. The company manufactures and distributes petroleum additives that enhance the performance of fuels and lubricating oils in vehicles, equipment and machinery. MCC provides comprehensive additive solutions to the petroleum industry, including petroleum terminals, lube oil manufacturers, pipeline operators and aftermarket producers.

In addition to specialty chemicals, MCC assists clients with equipment needs, and provides specialized support services, such as regulatory compliance and marketing programs. With a line of top brands, including Chevron Oronite, BASF and Dow, MidContinental Chemical Company, Inc. is positioned to offer customers performance advantages from the most advanced additive technology available today.
